- ▶ Personal Care Aide

\*can be added to schedule if CTE requests it

# Why an online training?

- ▶ We were providing TTT multiple times per year - staff shortages
- ▶ and then came COVID-19 (enough said)
- ▶ Wanted a way to improve efficiency, consistency of information, and convenience for busy teachers to get trained.
- ▶ Wanted to provide a resource for new CTE and new Adult Ed teachers.
- ▶ Easily accessible, easy to update, and to track who completed.

# What needed to be included?

- ▶ Overview of ICAPS in IL (Sarah)
- ▶ Overview of ICAPS at CLC (Teachers, students, transition academy clips)
- ▶ Student Stories (video)
- ▶ Adult Education components (student success, wrap around services, video)
- ▶ Tips for Team Teaching Success
- ▶ Quizzes, locked modules and certificates

# Soooo... how's it going??

- ▶ Initially, well received, good feedback and suggestions. Revisions made 4/22.
- ▶ After two semesters, added Transition Academy updated video clips, revised two of the slide decks with updated info.
- ▶ Now using it for two years, CTE teachers and AE teachers all said it is helpful. We have had less complaints from students regarding teacher communications, expectations and support.
