

Watch the video to learn more about the Evaluation Toolkit!

As a One-Stop Operator, workforce professional, or WIOA Core Partner, evaluation is key to your programs, policies, and process success and implementation. The Service Integration policy also has an Evaluation goal. The Illinois Workforce Innovation Board's (IWIB) Evaluation Workgroup recognized the need for tools to evaluate the workforce system. [An Evaluation Toolkit](#) was launched to guide users through a step-by-step process to evaluate programs, policies, and procedures throughout the Illinois workforce system. This toolkit's framework relies on the IWIB Equity Task Force's concept of an equity lens as its foundation.

CLICK HERE!

The Evaluation Toolkit:

- Provides a user-friendly means to review and evaluate programs, policies, and processes across the workforce, education, and economic development systems.
- Analyzes evaluation results to determine if they conform to intended outcomes, leading to continuous improvement at the local level.
- Ensures processes remain valid and lead to organizational and management change.

The Evaluation Toolkit can be used locally to evaluate programs, policies, and processes. By working through the toolkit's checklist, teams can recognize promising practices and areas of continuous improvement. If teams are not ready for evaluation, the toolkit includes resources to help them become evaluation ready.

The IWIB Evaluation Workgroup would love to hear what you think! Leave your feedback [here](#).
